Commercial Wills & Trusts

We can help you to ensure that your businesses assets are distributed as per your wishes

Whilst it's surprising to know that two thirds of adults in the UK don't have a personal Will in place,* even fewer have any kind of Will/Trust for their business. This can often be the biggest asset an individual owns and is the sole source of their family's income. Losing control of the business or not getting the value out of it are concerns that Scarlett Financial Services can help with, making sure that the assets of your business are distributed how you want and that your family gets what they deserve. A business Will/Trust can ensure:

For a free consultation...

On how we can help support you and your business in relation to any of these areas please call today.

- Family members receive their designated share of your business
- The value of the business is passed in a tax efficient way
- The business can continue in your absence, providing an ongoing income to your beneficiaries
- Any remaining shareholders/partners keep control of the business they helped build

As well as making sure that the above are dealt with by having the correct Will/Trust, our advisers can make sure that you also have suitable protection in place to guard against the risks of death to a business owner and put the correct agreements in place so that you decide the outcome.

Scarlett Financial Services do not provide a Will writing service, but we are aligned to suitably qualified solicitors who we can refer you to.

Trust Advice, Wills and Will writing is not regulated by the Financial Conduct Authority.

We can help you to keep control of and protect the future of your business

Starting and building a successful business is a demanding process which takes hard work and dedication, and finance.

Losing control of the business would be most director's worst nightmare but without suitable planning in place this can easily become a reality.

Should the worst happen and there not be suitable protection in place, the loss of a key employee, director or shareholder can result in a business losing its profitability, the owners losing control of the business or in the worst case the business dissolving.

At Scarlett Financial Services, we can help you to understand the importance of protecting your business interests, providing a comprehensive range of options to make sure that all areas are considered whilst taking into account budget constraints, and there is no fee for the service provided.

Tax advice is not regulated by the Financial Conduct Authority.

Are you concerned about...

- ✓ Repaying your mortgage in the event of death
- ✓ Replacing a key person or business profits in the event of death or serious illness
- ✓ Providing for family in a tax efficient way
- ✓ Buying out a shareholder in the event of death or serious illness

With access to a large range of insurers from across the market we can offer the most appropriate products to meet the individual circumstances of your business, with competitive premiums, whilst making sure this happens in the most tax effective way.

With our aim to build long term relationships we will review your businesses circumstances on a regular basis to make sure you are not paying more than you have to and that any cover is still relevant. Why not get in touch today and find out how you can protect the future of your business and its main asset – you.

Commercial Finance: We can help you to finance your next commercial property

With commercial rents increasing significantly, more and more business owners are looking to purchase their own commercial property, adding value to the business and increasing the assets held.

Often it is more cost effective to finance such purchase as compared to renting, as with the residential property market.

At Scarlett Financial Services we refer to a 3rd party who then have a comprehensive range of commercial finance companies, with access to a number of specialist providers who can help you secure your next business premises.

Your property may be repossessed if you do not keep up repayments on your mortgage.

There will be a fee for mortgage advice. The amount will depend upon your circumstances but a typical fee would be £295, payable on completion of the process.

Scarlett Financial Services are not authorised via Personal Touch Financial Services Ltd to provide commercial mortgage advice. We will refer you to a suitably qualified and authorised 3rd party.

Corporate Healthcare: We can help you support your employees with added benefits

One of the most costly things for a business can be when an employee is off sick, not only are you losing their time but it will often cost money in sick pay benefits. If this person has a significant impact on profitability then this problem can cause major issues.

With the increasing strain on our National Health Service it can now take even longer than ever for an employee to get the treatment they need and return to work as quickly as possible. For this reason, more and more businesses are looking at ways to minimise the impact of staff sickness and make sure they are back to work as soon as possible, one way of doing so is to offer employee healthcare benefits.

With access to options from across the market, the advisers at Scarlett Financial Services are experts in this area and can do the hard work for you, making sure we find the most appropriate product to meet the needs of your business, not only providing a benefit to you but also an added employee benefit.

We do not charge for our advice but receive a commission from the provider. Scarlett Financial Services Ltd act as a credit broker not a lender.

We can help with any of the following:

- ✓ Private Medical Insurance
- ✓ Cash Plans
- ✓ International Cover
- ✓ Dental Plans

By your employees being able to choose the time and place of treatment you can reduce the amount of staff absence and limit the cost of illness. By also providing an added benefit to your employees you can also increase staff retention and keep hold of those key people in your business.
